

std::runtime\_error

```
graph BT; Error[Error] --> runtime_error[std::runtime_error];
```

A diagram illustrating inheritance. A gray box labeled "Error" is at the bottom, and a white box labeled "std::runtime\_error" is at the top. A blue arrow points from the "Error" box to the "std::runtime\_error" box, indicating that "Error" inherits from "std::runtime\_error".

Error
